HINTS

UNITED STATES DEPARTMENT OF AGRICULTURE, FOREST SERVICE WASHINGTON, D.C.

Vol 4

August 27, 1938.

No. 16

Construction Hints has again changed editors. Because of other work, Donald Hamilton has returned the job to the former editor, Harold L. Friend. The publication will continue to be sent out on the second and fourth Saturdays of each month --- if --- the Regions will continue their excellent contributions.

This issue is devoted entirely to an alphabetical index of all issues from the beginning on May 4, 1935, up to and including the issue of June 25, 1938. The front cover may be detached if desired, and the index used at the beginning of your file of copies.
